

Vaishnavi Vikas Wakhare

1. What was your viticulture and enology background before attending VENIT?

Before taking admission in the VENIT program, I didn't had any viticulture and enology background. I did my bachelors in Food Technology, so during this I got the opportunity to do the internship in the India's first strawberry wine. I just had a rough knowledge about the wine and winemaking process. Also a bit of laboratory analysis. In the viticulture I didn't had any idea, I had never been to the vineyards before.

2. What was your occupation before attending VENIT?

As mentioned above I was doing my under graduation in Food Technology

3. What is your current occupation?

Nowadays I am searching for the jobs in different countries in the wine sector

4. How much VENIT contributed to such a change?

VENIT contributed a lot of change in my entire course, because it covered almost all the topics needed to learn about both viticulture and enology. It has given me the opportunity to develop a deep knowledge into the subjects and prepare me for the wine world and for an international career. Also the best thing about this course is I got the chance to visit several best known wineries from their respective regions. I noticed that I have become more confident person after the VENIT program.
